Efficiencies for UOCAVA Voters

Immediate benefits of VoteHub include more efficient ballot preparation and processing for ballots cast by UOCAVA voters and voters with disabilities.

- More efficient electronic ballot delivery, saving dozens of hours transmitting ballots by email.
- More efficient signature verification processes, saving dozens of hours spent downloading, printing, and reviewing signature affidavits.
- More efficient ballot extraction and printing.
- Eliminates need to manually duplicate ballots, saving dozens of hours spent hand-marking and reviewing ballots.
- Faster ballot scanning and tabulation.

Benefits At A Glance

- At least 17% time and cost savings for UOCAVA ballots
- At least 70% reduction in time and cost processing mail ballots
- Faster election results

Expanded access to mobile voting would yield even more benefits.

In the future, as mobile voting options are expanded to more eligible voters, the benefits would grow, including:

- Reduced costs associated with printing and mailing absentee ballots.
- Reduced time to get ballots to and from voters.
- Reduced need to locate and rent space for in-person voting.
- Reduced need to communicate polling location changes to voters.
- Reduced need to deploy personnel and equipment for in-person voting and absentee ballot retrieval.
- Faster absentee ballot processing with:
 - No need to retrieve ballots from the postal service or ballot drop boxes;
 - No need to open mail ballot transfer cases;
 - No need to sort paper envelopes for signature verification;
 - No need to open paper envelopes; and
 - No need to flatten and prepare paper ballots for scanning and tabulation.
- Eliminates need for expensive mail sorting equipment and time-consuming sorting and auditing process to conduct signature verification.
- Easier signature verification, including:
 - Easy verification of signature affidavits and accompanying documents, such as required ID, with no need to open and extract accompanying documents
 - Easy, side-by-side viewing of affidavits and reference signatures in voter registration records; and
 - Easy data tracking of throughput, ballots received, ballots verified, and ballots printed for tabulation.
- No human errors on hand-marked paper ballots that require adjudication and manual duplication.
- Auto-duplication software to print machine-readable ballots and save hours in manual duplication.

Time-savings means faster election results.
